He mentions that the written (convening) notice for GA 10 stating the venue, date, and time as well as the agenda, along with the materials was duly mailed to the RTRS members on 13 May 2016 in compliance with article 10 RTRS Statutes. Marc R. Büttler is acting as Secretary of RTRS at GA 10. Upon the Chairman’s request whether or not the agenda shall be amended no motion is put forward.

1b) Presentation 2015/2016 Activities

The Chairman briefly outlines the RTRS activities since the last RTRS General Assembly (GA 9) in Brussels including (i) the strategy highlights, (ii) the activities in general, (iii) the key performance indicators and (iv) the Principles and Criteria:

(i) very encouraging increase of 19 RTRS members bringing the total to 199 members which means a record for the history of RTRS;

(ii) community certification model development; corn model development; RTRS workshop in Canada for promotion purposes and for introduction for a national interpretation; RTRS mapping project for Argentina; conclusion of a co-operation agreement with Bayer; strengthening of task forces in Brazil and Europe; creation of task forces in Paraguay; trainings for auditors in Canada and Brazil; licensed trainings in Brazil and Argentina;

(iii) growth in certified production (growth in certified tons) from 1'408'052 in 2014 to 2'280'596 in 2015; growth of total sales (sold quantity) from 1'353'712 in 2014 to 2'310'610 in 2015;

considerable rise of the members’ public reporting obligations (Constituency Producers: 60%; constituency Industry, Trade and Finance: 31%; constituency Civil Society Organizations: 23%) which, however, still needs to be improved in order to be in compliance; RTRS members are requested for meeting the public reporting obligations, thereby reflecting their own progress and making it visible to the public; such reports shall be accessible on the RTRS website in order to enhance RTRS credibility;

(iv) first review of RTRS Soy Production Standards; RTRS Standards are reviewed on a 5 years interval basis; for such review a working group had been created which had three physical meetings since GA 9 in order to review all the standards and criteria bringing forward new proposals upon which a voting will be conducted at GA 10.

At this point Marcelo Visconti, newly elected RTRS Executive Director, in his office for six months prior to GA 10, steps up and introduces himself to GA 10 being the first RTRS GA he is participating in order to provide an outlook for 2016.
1. The involvement of the RTRS Executive Director started in Switzerland with an integration event having the goal to congregate the market not only from a RTRS perspective but covering the whole market in order to share the ideas of how RTRS shall move forward towards a 100% responsible soy bean in Europe.

RTRS also tried to take another approach in terms of communications and, furthermore, a new agency was contracted in Europe with which RTRS has been working since March 2016. Furthermore, a new professional was hired for the RTRS Secretariat, Laura Villegas.

RTRS demonstrates its development not only in terms of communications skills, but also with regard to the global outreach covering Europe. The market shall be aware of RTRS activities and its effects: to join forces, to collaborate, to open the dialogue, to debate and as a result thereof RTRS being an enabler of all things of relevance for the market.

The RTRS Executive Director stresses his view that all the members are part of all such efforts and endeavors and confirms that RTRS has made a good job.

2. Then the RTRS Executive Director draws the attention to the tools that RTRS needs to use more and more to enable RTRS to achieve the envisaged growth. In this regard he mentions the community certification and the necessity of reducing the costs of the certification for the growers thereby getting out of the polarity dilemma of the good and the bad. RTRS should develop concepts of how the demand and the production may be smoothly linked. RTRS is currently conducting impact assessments and China has shown its willingness to get involved.

3. RTRS has achieved its envisaged sales. However, RTRS wants to achieve more and with better quality. In this respect, the RTRS Executive Director mentions that out of a total of 2.3 Mio. sales only 200'000 qualify as physical flow. Hence, there is a demand of more physical flow in existence which is the reason for RTRS to develop enablers. It is the objective of RTRS to double the physical flow for this year. Therefore, RTRS shall link the task forces established in Brazil and Europe. The forecast is 3.2 Mio., however, RTRS has an aspiration to reach the threshold of 4 Mio. and to increase the quality of all RTRS activities.

1c) Rules for GA; Introduction to the Voting System and its Use

The Chairman gives an overview on how GA 10 will proceed, in particular the operation of the Electronic Voting System is introduced should its use be appropriate along the GA 10 procedure.

The Electronic Voting System is being tested by bringing the question to the plenum at what location the upcoming RTRS General Assembly (GA 11) shall be held. The Chairman points out that such voting would not result in having a final and binding decision by GA 10 on this topic, but such query shall have the sole objective of having ascertained the proper operation of the Electronic Voting System.
The voting results are as follows:

- Europe 34
- South America 14
- North America 10
- Asia 18
- South Africa 17

The Chairman states that the Electronic Voting System properly operates and GA 10 may now turn to the items on the agenda on which a voting is required.

1d) **Quorum**

Prior to doing so the Chairman brings the quorum of presence to the attention of GA 10: As of the date of GA 10 RTRS has 149 Participating Members, having voting rights at General Assembly meetings (as per article 6 al. 1 RTRS Statutes) consisting of:

- Constituency Producers: 30 Participating Members
- Constituency Industry, Trade and Finance: 98 Participating Members
- Constituency Civil Society Organizations: 21 Participating Members

As per article 12 RTRS Statutes the General Assembly meeting shall have the quorum, if more than 50% of the Participating Members of each constituency are present or are represented by another Participating Member with her/his written approval.

Therefore, GA 10 has quorum if the following minimal presence or representation is reached:

- Constituency Producers: min. 16 Participating Members
- Constituency Industry, Trade and Finance: min. 50 Participating Members
- Constituency Civil Society Organizations: min. 12 Participating Members

The accreditation at the doors of GA 10 was duly carried out and the Chairman ascertains that, according to the information resulting from the accreditation process GA 10 has indeed the quorum as per article 12 RTRS Statutes.

2 **Approval of Minutes of the 9th General Assembly 2015 in Brussels**

The Chairman refers to the minutes as attached to the written (convening) note dated 13 May 2016 (Annex 2) and requests to the plenum whether there are any votes against the approval of the minutes of GA 9 in Brussels.
As no votes against the approval of the minutes of GA 9 are being cast (in open ballot) the Chairman brings to the attention of the plenum that this may have the consequence of assuming that such approval was resolved by consensus in the absence of any motions put forward (including abstentions). No motion in this respect is put forward.

RTRS GA 10 resolves the following:

The Minutes of RTRS GA 9 are approved (by consensus).

3a) Report and Audited Accounts 2015

The Chairman provides a general overview of the Financial Report 2015 as well as an outlook for the upcoming business year:

- **2015:** RTRS members have been served with the Financial Report 2015 as attached to the written (convening) note dated 13 May 2016 (Annex 3), including the balance sheets and profit and loss statements. Hence, the income amounted to some EUR 1.2 Mio. whereas the expenses were some EUR 980'000.-- which led to a positive balance result of some EUR 264'000.--.

The report also contains an (i) income breakdown (such as certification fees, membership fees, project financing, sponsorship & fee RT, and other income) as well as an (ii) expense breakdown (such as the RTRS Secretariat, market development, direct project costs, annual conferences, professional services on the legal side and on the financial side as well as for IT services (including trading platform) and expenses for the RTRS Executive Board members. Compared to 2014 it may be perceived that there is a steady growth. Therefore, RTRS becomes more resilient and more stable which enables RTRS to outreach to producers outside the market.

The accumulated result of some EUR 564'000.-- and total assets of some EUR 994'000 reflects that there are sufficient assets available to meet the RTRS liabilities beforehand, settle invoices addressed to RTRS and sometimes even pre-finance activities and recuperate the external funds at a later stage.

- **2016:** As a consequence of (i) the investments made and to be made into the RTRS Secretariat in order to increase the respective quality and (ii) the foundation of new representations in a variety of outside territories the operating expenses are expected to increase accordingly, in particular for professional services related thereto. Nevertheless, RTRS expects a positive financial result for the year 2016 as well.

The Chairman points out that the auditor's report issued by Juan Jose Dechiara on 20 April 2016 confirmed that that RTRS financial statement gives a true and fair account of the RTRS financial situation by the end of the year 2015:
• "We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion".

• "In our opinion, the financial statements give a true and fair view of the financial position of Round Table on Responsible Soy Association as at December 31, 2015 and of its result for the year then ended".

The Chairman then refers to the materials as attached to the written (convening) note dated 13 May 2016 (Annex 3), in particular to the RTRS Financial Report 2015 and the Auditor’s Report 2015 and requests to the plenum whether there are any votes against the approval of the RTRS Financial Report 2015 and the Auditor’s Report 2015.

As no votes against are being cast (in open ballot) and in the absence of any motions put forward (including abstentions), the Chairman confirms that the RTRS Financial Report 2015 and the Auditor’s Report 2015 have been approved.

RTRS GA 10 resolves the following:

3b) Approval of Treasurer’s Performance 2015/2016

He then requests to the plenum whether there are any votes against the acquittal of Gerrit van der Bijl.

As no votes against are being cast (in open ballot) and in the absence of any motions put forward (including abstentions), the Chairman confirms that the acquittal of Gerrit van der Bijl has been approved.

RTRS GA 10 resolves the following:
The acquittal of the performance of Gerrit van der Bijl in his capacity as treasurer of RTRS is approved (by consensus).

3c) Appointment of Auditors for Financial Year 2016

The Chairman mentions the RTRS Executive Board resolution proposing the appointment of a new audit firm for the next fiscal year. He then refers to the materials as attached to the written (convening) note dated 13 May 2016 (Annex 4) reflecting the profile of the new auditor as proposed by the RTRS Executive Board, being Fidem Partners having its seat in Buenos Aires (Argentina), and requests to the plenum whether there are any votes against the appointment of Fidem Partners as new audit firm.

### 4a) Approval of the Executive Board Members’ Performance

The Chairman informs GA 10 that now (like in the case of the RTRS treasurer) the procedure shall be opened for the acquittal of the individual RTRS Executive Board members included in the list attached to the written (convening) note dated 13 May 2016 (Annex 5). The voting process related thereto shall be open for all Participating Members present or represented and not only to the respective constituencies because - as once elected and irrespective of the interests of the constituency they represent – they are members of the RTRS Executive Board and as such are subject to the scrutiny of all Participating Members.

#### aa) Approval of performance due to expiration of his/her office

- **John Landers**: RTRS Executive Board member since GA 8 (APDC): He is a long standing RTRS Executive Board member and has been involved for more than ten years. John Landers is retiring from the RTRS Executive Board.

At this point John Landers speaks up as he wishes to explicitly remind of the proposal of deforestation and address GA 10 with his recommendation to support the new standards agreed upon. He emphasizes that he was the person to suggest to have deforestation put into a new standard. He also stresses that RTRS does a lot for the public image in Europe. On the one hand producers are free to join RTRS or not while producers joining RTRS nowadays are qualifying as pioneers. The farmers on the other hand on a regular basis may opt to proceed under their national legislation and deforest legally. As everyone may recall the first standard established by RTRS was heavily criticised in Europe.

After such speech of John Landers the Chairman requests to the plenum whether there are any votes against the acquittal of John Landers. In light of the fact that there is only 1 vote against the approval (in open ballot), the Chairman confirms that the acquittal of John Landers has been approved.

5 Approval of New Standard

The Chairman refers to the minutes as attached to the written (convening) note dated 13 May 2016 (Annex 7) and introduces the voting procedure on the approval of the New Standard 3.0. He intends to have the approval on a staggered basis insofar as in a first step the voting will be on the whole document.

Should no approval on the whole document be reached, the voting will be processed on a chapter by chapter basis.

Upon the Chairman’s question whether or not there are any Participating Members against the approval of the whole document there are no motions put forward and no oppositions raised. Further, the Chairman brings to the attention of the GA that upon such circumstances the New Standard as a whole document has been unanimously approved. Such declaration by the Chairman is approved by acclamation.
